

## Contents

### Scientific papers

- Relationship between the serological status towards enzootic bovine leukosis and reproductive parameters in specialized dairy herds in Costa Rica.  
*Juan José Romero, Gerardo Dávila, Gabriela Beita and Gaby Dolz* ..... 7-18
- Fungi that cause postharvest diseases in chayote (*Sechium edule* (Jacq.) Sw.) and their in vitro control.  
*Siul D. Romero-Velazquez, Bertha Tlapal-Bolaños, Jorge Cadena-Iñiguez, Daniel Nieto-Ángel and M<sup>a</sup>. de Lourdes Arévalo-Galarza* ..... 19-32
- Genetic diversity among bovine racial subpopulations of Costa Rica.  
*Marco Martínez, Bernardo Vargas, Juan Miguel Cordero, Idania Chacón and Bernal León* ..... 33-45
- Evaluation of silicon, calcium and magnesium in liquid fertilizers on sorghum growth in the greenhouse.  
*Mario A. Araya, Manuel E. Camacho, Eloy Molina and Gilberto Cabalceta* ..... 47-59
- Effect of *Trichoderma* spp., *Paecilomyces lilacinus* and nematicide injection into the pseudostem, on *Radopholus similis* control and banana production.  
*Randall Vargas, Amy Wang, Miguel Obregón and Mario Araya* ..... 61-76
- Risk factors for clinical mastitis in dairy cattle of Costa Rica.  
*Maria Gabriela Mora, Bernardo Vargas, Juan José Romero and Jorge Camacho* ..... 77-89
- Asexual propagation bluebush (*Justicia tinctoria* (Oerst.) D. N. Gibson, Fam. Acanthaceae) by cuttings.  
*Carlos A. Solís, Víctor Jiménez and Julio Arias* ..... 91-103
- Risk profile of microbiological and chemical contamination in the production chain of nine horticultural products for fresh consumption of a group of agricultural companies in the Costa Rican Central Valley.  
*Guillermo Vargas-Hernández, Alfredo Durán-Quirós, María Isabel González Lutz and Dennis Mora-Acedo* ..... 105-119
- Determining the stages of tillering stage, initiation of primordia, flowering and maturity in the rice plant, with the system S, V and R correlated with the thermal sum at the time.  
*Jennifer Velázquez, Andrea Rosales, Hernán Rodríguez and Rafael Salas* ..... 121-129

### Technical notes

- Characterization of the producers of organic vegetables distributed in the Greater Metropolitan Area (GAM), Costa Rica.  
*Marlen Camacho, Karen Arauz, Natalia Barboza, Héctor A Martínez and Julio Arias* ..... 131-142
- Determination of the growth of nematophagous fungi on diverse carbon sources.  
*Martha Orozco A., Ana Jiménez R., Oscar Acuña N. and Víctor Álvarez C.* ..... 143-151
- Design of a system to quantify contamination risks and its use in identifying critical control points in horticultural crops in Costa Rica.  
*Guillermo Vargas-Hernández, María Isabel González-Lutz, Alfredo Durán-Quirós and Dennis Mora-Acedo* ..... 153-166
